Experiment 7 : Students Attendance System Using Cloud Computing (SaaS)

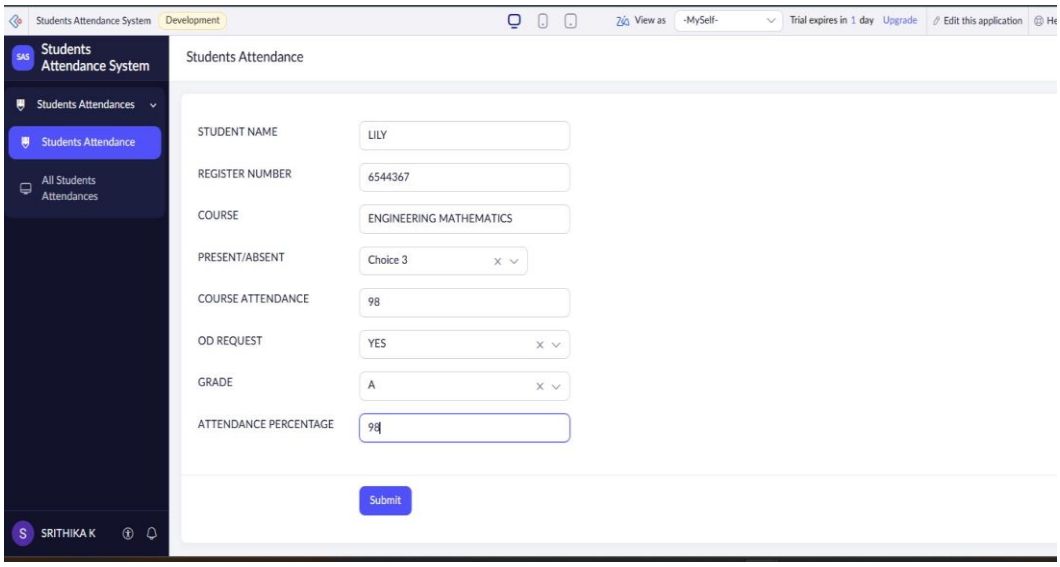

Aim

To create a cloud-based Students Attendance System using Zoho Creator to record student attendance, OD requests, grades, and attendance percentage.

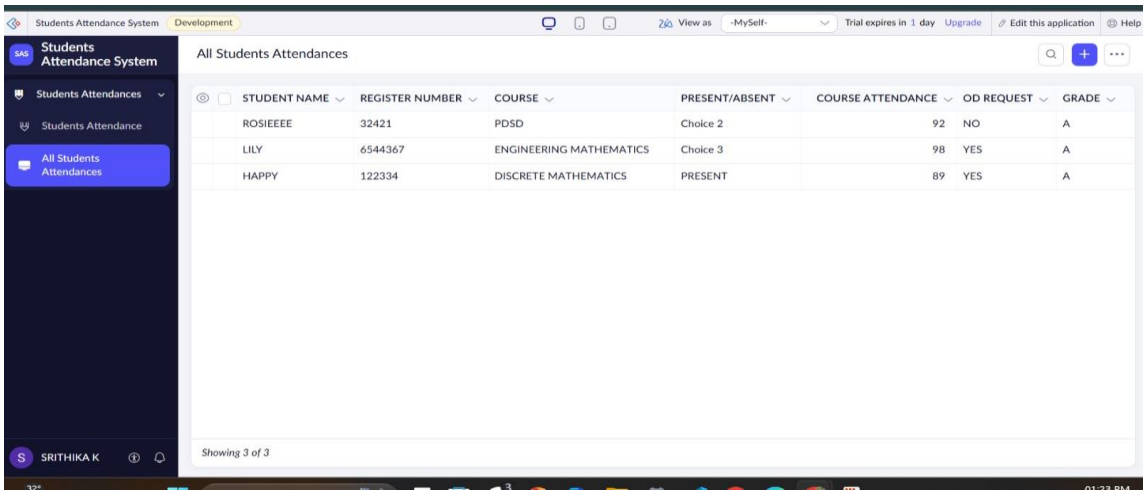

Procedure

- Open Zoho Creator and sign in.
- Create a new application named Students Attendance System.
- Create a form named Student Attendance.
- Add fields such as Student Name, Register Number, Course, Present/Absent, Course Attendance, OD Request, Grade, and Attendance Percentage.
- Set Present/Absent choices as Present and Absent.
- Set OD Request choices as Yes and No.
- Set Grade choices as A, B, C, and D.
- Save the form.
- Enter sample student details and attendance information.
- Submit the form and view the records.
- Verify that the attendance details are stored in the cloud.

Input

Output

Result

Thus, a cloud-based Students Attendance System was created successfully using Zoho Creator to demonstrate Software as a Service (SaaS).
