Experiment 4: Library Book Reservation System Using Zoho Creator (SaaS)

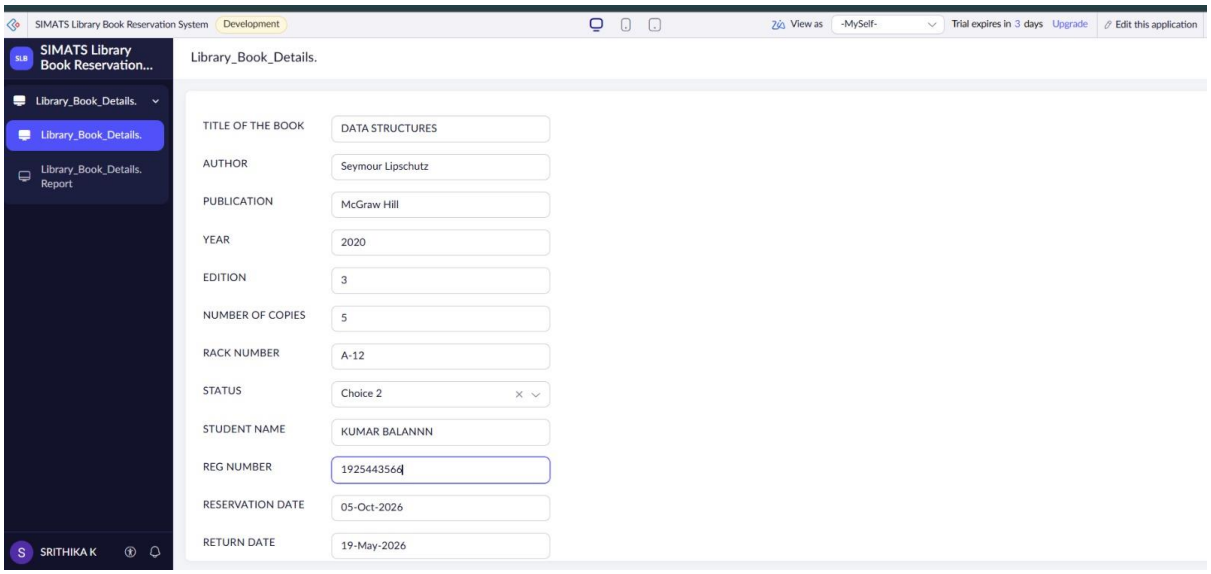

Aim

To create a simple cloud-based Library Book Reservation System for SIMATS Library using Zoho Creator to demonstrate Software as a Service (SaaS).

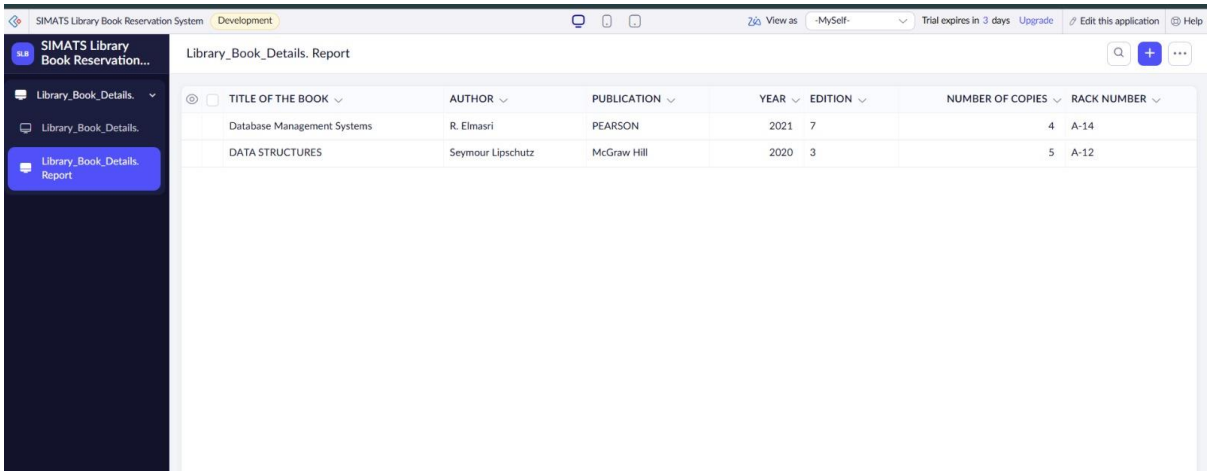

Procedure

1. Open the Zoho Creator website and log in to your account.
2. Create a new application named SIMATS Library Book Reservation System.
3. Create a form named Library Book Details.
4. Add the necessary fields: Title of the Book, Author, Publication, Year, Edition, Number of Copies, Rack Number, Status, Student Name, Register Number, Reservation Date, and Return Date.
5. Configure the Status field with the options Available, Reserved, Taken, and Returned.
6. Enter sample book details into the form.
7. Save the records and view them in the application's report.
8. Test the application to verify that book information can be stored and retrieved through the cloud.

Input

Output

Result

Thus, a simple cloud-based Library Book Reservation System for SIMATS Library was created using Zoho Creator to demonstrate Software as a Service (SaaS).
