Experiment 8 : Student Counselling System Using Cloud Computing (SaaS)

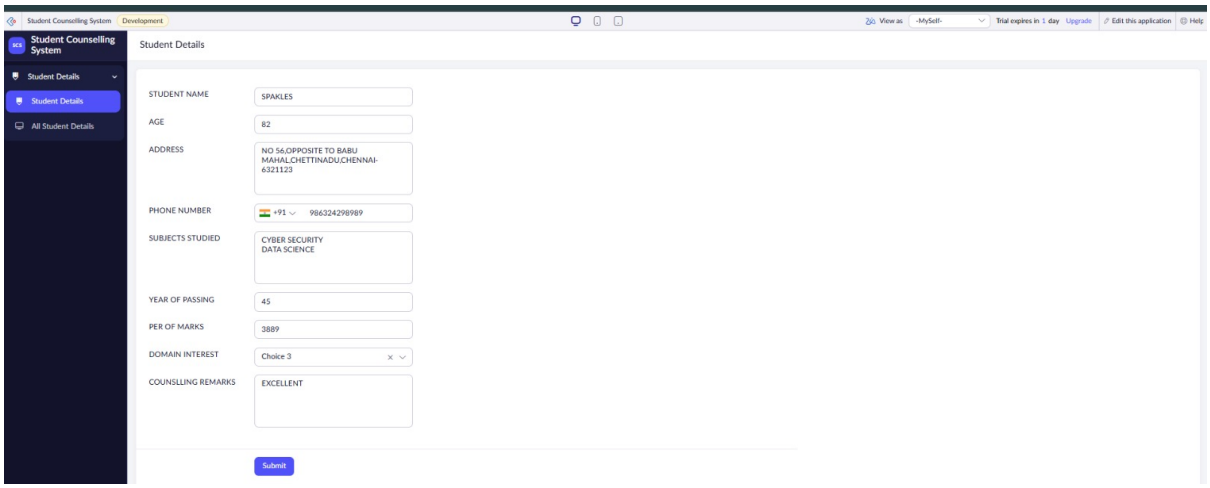

Aim

To create a cloud-based Student Counselling System using Zoho Creator to collect and manage student details.

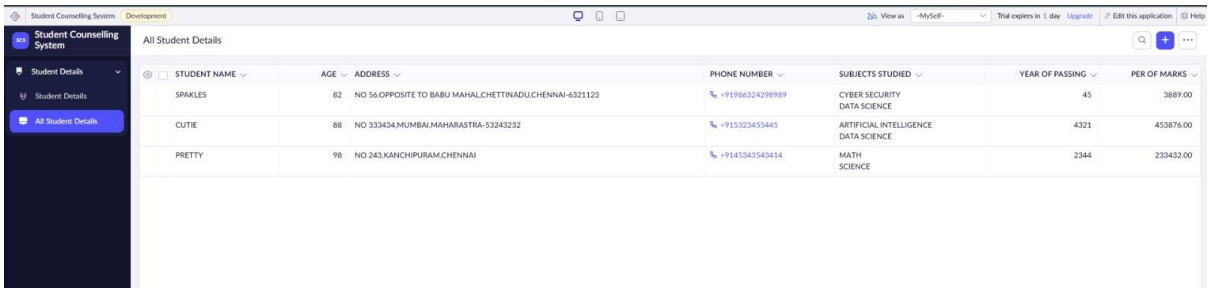

Procedure

1. Open Zoho Creator and create a new application named Student Counselling System.
2. Create a form named Student Details.
3. Add fields such as student name, age, address, phone number, subjects studied, year of passing, percentage of marks, domain interest, and counselling remarks.
4. Configure the domain interest dropdown options.
5. Save the form and enter sample student details.
6. Submit the form and view the saved records in the report.

Input

Output

Result

Thus, the Student Counselling System was created successfully using Zoho Creator as a Software as a Service (SaaS) application. Student details were entered and displayed in the report.
