Experiment 9: SIMATS Hospital Information System

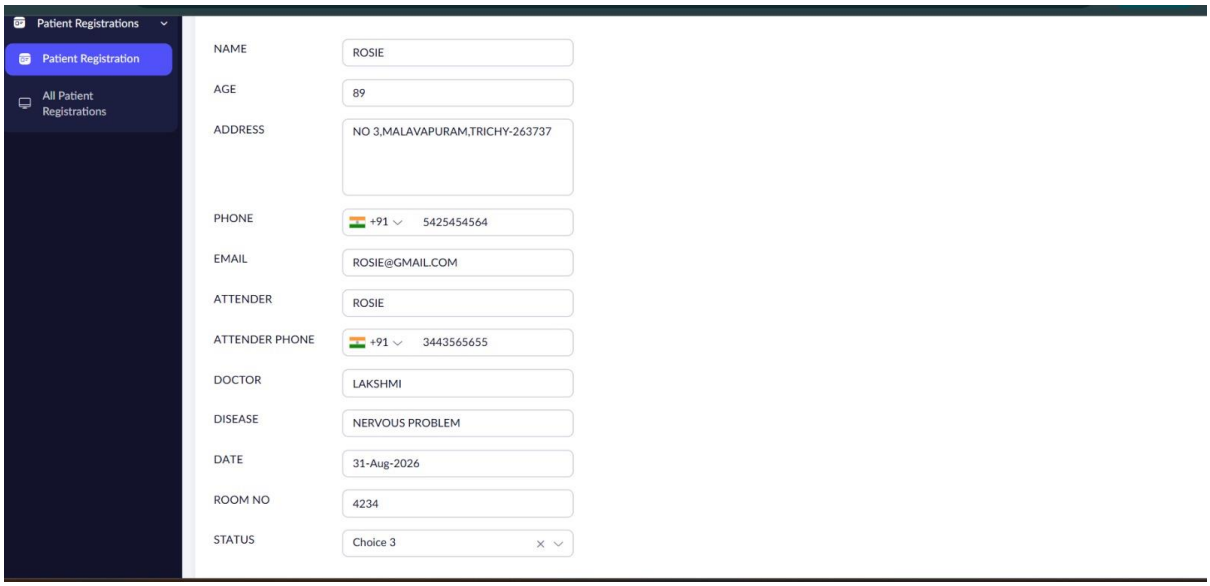

Aim

To create a cloud-based Hospital Information System using Zoho Creator to manage patient details.

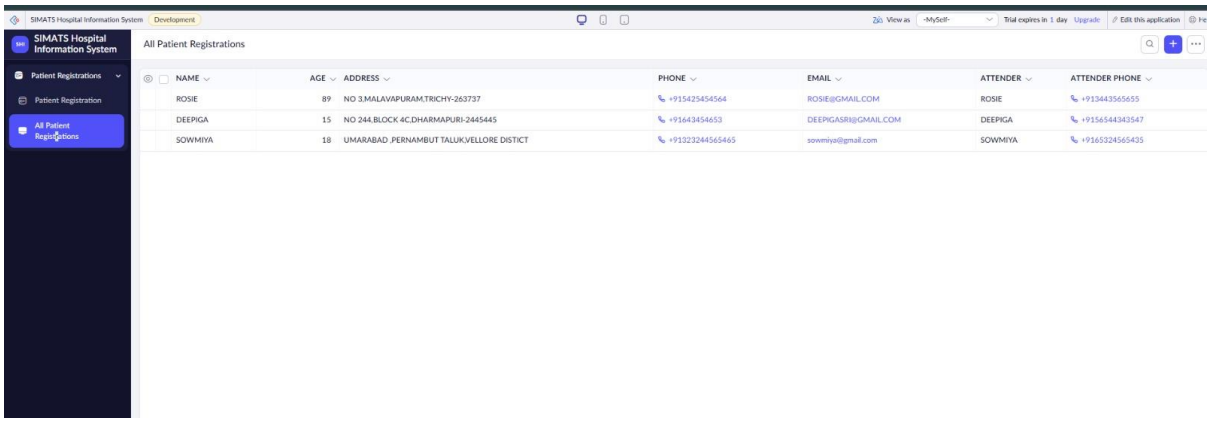

Procedure

- Open Zoho Creator and create a new application.
- Name it SIMATS Hospital.
- Create a Patient Details form.
- Add fields for name, age, address, phone, attender, doctor, disease, and status.
- Save the form and enter sample details.
- View the saved patient records.

Input

Output

Result

Thus, a cloud-based SIMATS Hospital Information System was created using Zoho Creator to demonstrate SaaS.
