Experiment 5 :Mark Sheet Processing System Using Zoho Creator (SaaS)

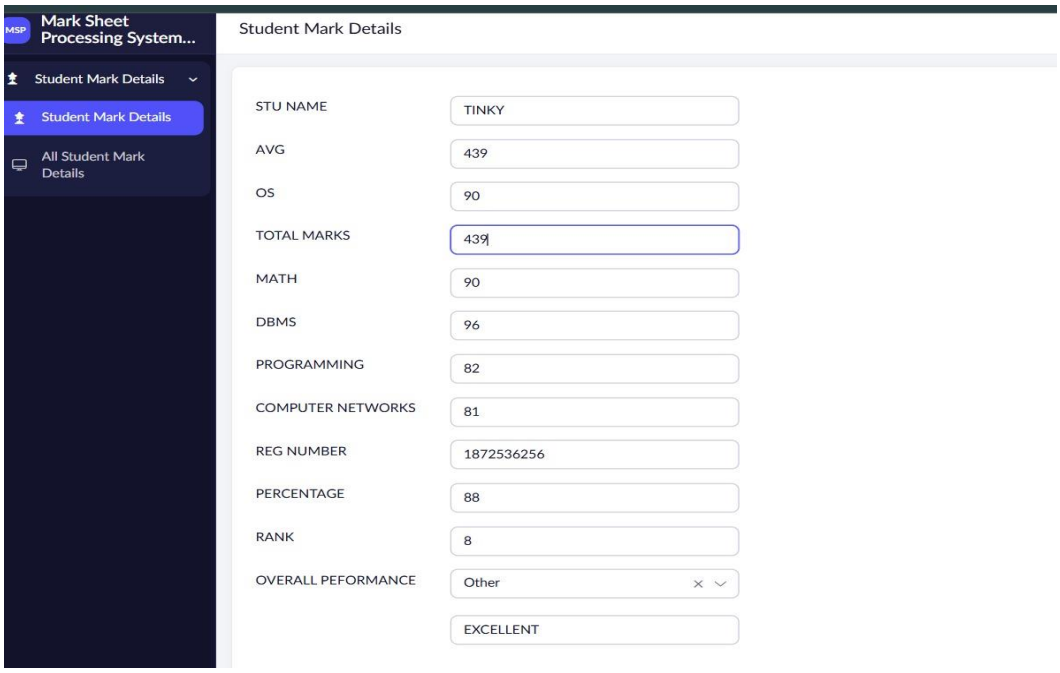

Aim

To create a simple cloud-based Mark Sheet Processing System using Zoho Creator to demonstrate Software as a Service (SaaS).

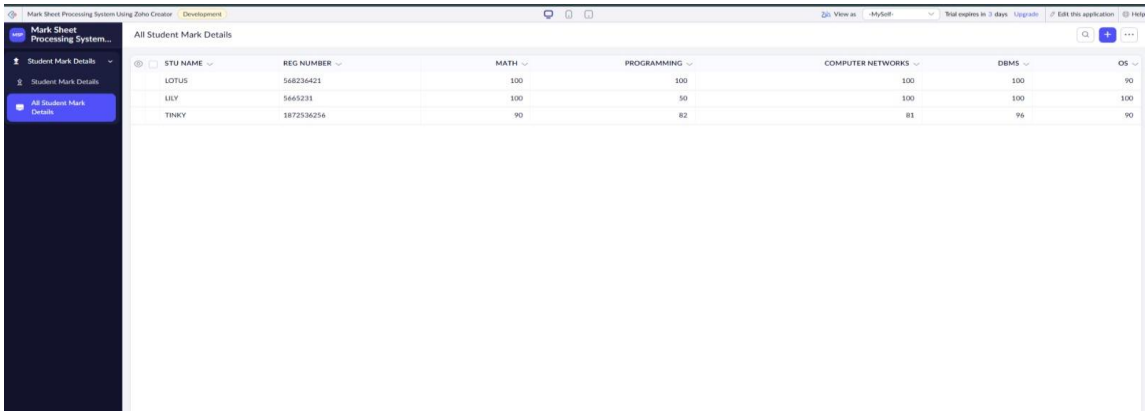

Procedure

1. Open the Zoho Creator website and log in to your account.
2. Create a new application named Student Mark Sheet Processing System.
3. Create a form named Student Mark Details.
4. Add fields such as Student Name, Register Number, Mathematics, Programming, Computer Networks, Database Management, Operating Systems, Total Marks, Average, Percentage, Rank, and Overall Performance.
5. Enter the marks obtained by the student in each subject.
6. Calculate the total marks, average, and percentage.
7. Enter the rank and select the overall performance from the dropdown field.
8. Save and submit the student details.
9. View the saved records in the application report and verify the output.

Input

Output

Result

Thus, a simple cloud-based Mark Sheet Processing System was created using Zoho Creator to demonstrate Software as a Service (SaaS).
